

COVID-19 Guidelines

Regulations for trade fairs:

- No more restrictions apply to trade fairs and exhibitions that restrict access to persons with a certificate.
- Access control: MCH ensures efficient access control in all areas.
- In particular, visitors can also dispense with wearing masks indoors.
- Trade fairs and exhibitions open to the public must have a protection concept with measures for hygiene and implementation of access control

Covid certificate: You can get all information about the certificate [here](#).

Set-up and dismantling: For set-up and dismantling, a protection concept as for construction sites is provided, unless the Covid certificate is used:

- Mandatory masks
- Distance
- Disinfectant
- Shift work

Disinfection and Cleaning:

- Sufficient hand-washing opportunities
- Hand disinfection points at the entrances and exits and in the toilets, catering areas and communal areas
- Frequent cleaning in all meeting zones
- Frequently used surfaces are disinfected regularly (e.g. toilets, rubbish bins, escalator handrails, door handles, lifts, counters and cloakrooms)
- Staff wear disposable gloves when handling waste and dirty laundry
- Work clothing is cleaned regularly

Ventilation: Halls are ventilated with 100% fresh air.
